The following towns in Michigan are threatened by forest fires:
At Traverse City \$5,000 damage had been done up to midnight and the fires are still raging.
At Trowbridge, fire destroyed most of the town.
At LaGrange fires gaining headway and threatening the town. At Cheboygan dense clouds of smoke overhang the sky and telephone communication has been cut off to the south, where it is reported that the towns of Millersburg, Laroque and Onaway have been destroyed.
At Lewiston the entire population is engaged in fighting the flames which threaten to destroy the town on all sides.
At Bay Shore village endangered by brush and forest fires.
At Boyne City, loggers reported surrounded by forest fires.
At Lake City, the largest town in Missaukee county, fire gaining headway in spite of desperate efforts of the fire fighters.

East Tawas, July 12.—With refugees arriving every hour, many crawling on their hands and knees, burned, injured, and exhausted this town at noon today, shelters about 800 persons made homeless by the forest fires that have been raging in this district since yesterday. Early this morning the food supply here gave out and relief has been asked from Bay City. With relief trains with doctors and nurses aboard are being rushed here from neighboring parts of the state. One man who arrived here today in a serious condition tells of seeing at least 50 fall in the street or run directly in the walls of the flames at Au Sable.

Lansing, Mich., July 12.—The entire national guard of Michigan is to be called for duty in the regions where the forest fires are raging. Major J. N. Cox is trying to get in touch with Governor Osborne, who is yachting on Lake Michigan to get the necessary order. Calls for aid from the state troops have been received from many stricken towns.
The towns of Oscoda and Au Sable were wiped off the map and hundreds of persons perished last night in one of the worst forest fires that has ever visited Michigan. Not a business place is left in Oscoda today. From its start the fire was fanned by a fierce gale and all night long it raged in Oscoda. The fire

REPUBLICAN MEMBERS OF PUBLIC WORKS WILL KEEP ENGINEER HATCH IN OFFICE

Columbus, July 12.—Ignoring the recommendation of James R. Marker when he was chief engineer, the Board of Public Works has re-elected Charles E. Hatch of Akron superintendent of the Northern division of the Ohio canal. Marker tried for months to have Hatch discharged. Last October he made a report to the state board con-

BOSTON HAS REAL FLY COPS NOW; THEY'RE ORDERED TO SWAT FLIES

Boston, July 12.—Boston citizens have been warned that if they see one of the city's "finest" waving his arms in the air and making a wild swing at space they should not yell for an alienist. The policeman is not crazy with heat; he is just following out the orders issued by the health department to help kill all the flies in our fair city.
Every member of the department is now a "fly cop," and there are almost 1,500 of them.
The fly is to be killed, no matter

where he is. It is possible that a fly may light on a man's head. The officer in swatting, of course, will only try to end that fly's existence, saving the head of the man so far as is consistent with his duty.
The policemen were somewhat taken back when the orders were first issued, and some were unwilling to believe that they were engaged in any such work. The vast amount of good that they could accomplish was made plain to them, and they have entered into the spirit of it with destructive zest.

which made its way to the stricken towns by means of numerous spur tracks.
The fire swept over the doomed cities with such rapidity that all the inhabitants could do was to flee for their lives leaving behind all their belongings. The fierce rush of the flames drove hundreds into Lake Huron and while it is impossible to ascertain whether any lives were lost it is feared many have perished.
According to the stories of 300 refugees who arrived here this morning when the train left Oscoda the flames were leaping 100 feet and roaring like a furnace. The heat was so intense that those within the coaches had to close the windows. Bodies are lying in the streets of Au Sable and the churches and halls are packed with those who were overtaken by the flames. Many who sought shelter from fire were suffocated from the dense smoke. Babies carried to the water in trunks were either drowned or smothered to death.
From Alpena and Boyne City, reports are coming in today of fierce fires raging about those cities. At Boyne City the fires are reported to have surrounded several logging camps and to have homed in the loggers with a solid wall of flames. At both Alpena and Boyne City heavy clouds of smoke can be seen on all sides.

Bay City, Mich., July 12.—Among the refugees who arrived here early today on the D. and M. relief train from Au Sable and Oscoda wiped out by flames were Mrs. Doris Diamond, a survivor of the Iroquois theatre fire in Chicago.
She said that the scenes at Oscoda were more horrifying than the Chicago holocaust.
The people were compelled to rush from their home with whatever they had on their backs," said Mrs. Diamond, "and run for their lives to the lake and swamps, so rapidly did the flames spread. My four children, my sister and myself fled from our home as the flames roared down upon us and joined the panic stricken crowd fleeing for places of safety.
"I saw women and children fall upon the road exhausted from the smoke and heat and it seemed incredible that all escaped with their lives. My sister was with us when we started from our home but she stopped to assist a woman with her children and we became separated, and I do not know whether she is alive or not. People who gathered up their personal effects in bundles before leaving their homes were compelled to drop them in their rush for safety.
The awful scenes were more terrifying and impressed me more than my experience in the Iroquois theatre fire.

North Bay, Ont., July 12.—Three towns have been wiped off the map, seven prospectors are known to be dead, many others are missing and hundreds of refugees are facing starvation as the result of the forest fires now sweeping through the Porcupine region. With the woods like tinder and the flames fanned by a wind from the south the fire spreading with wonderful rapidity and hundreds of men, women and children have been compelled to wade into lakes, rivers and small streams to seek refuge from the intense heat.
Cochrane, a town of 2500 inhabitants. South Porcupine and Pottsville are masses of charred ruins today. Golden City has been surrounded by flames for hours and is still in danger, although only the suburbs have been burned. Half of Tisdale has been wiped out, and the fire is being controlled only by blowing up a dozen houses in the middle of the town. Reports received here today say that every mining camp between Whitney township and Dome has been wiped out. The known dead in this section are F. Flynn, A. Uille, and W. F. Fletcher, burned when caught in a little lake into which they retreated to escape the crushing fire, and Billy Moore, a railway contractor, with three foremen who were drowned trying to ford a river.
The flames swept down on South Porcupine and Pottsville almost without warning. The alarm came just in time for the people to rush for the lake but they were forced to abandon all of their belongings. Gasoline boats, row boats and even hastily improvised rafts were utilized to get the refugees many of whom were women and children across to Golden City. There, all with other survivors of the fires in the north, at present fighting back the forest fire which scorched the outskirts of that place. There are only a few days provisions left in Golden City. The laborers employed on the Ontario government's new railroad line from Golden City west reached the city after a desperate fight with the flames in which many were badly burned. They lost everything but the clothes they wore. The town of Kelso was abandoned today after a fight lasting since Sunday.
Superintendent Black and staff of the Ontario railway have side tracked all trains to expedite relief trains being sent to endangered points.

Von Kiderlen-Wachter Next German Chancellor

Berlin, July 12.—Herr von Kiderlen-Wachter, according to reports here, will be the next chancellor, to succeed Chancellor von Bethmann-Hollweg, who, it is said, will resign.

VON KIDERLEN-WACHTER
Kiderlen-Wachter, who now is the imperial secretary of foreign affairs, has become the chief adviser of the kaiser. Kiderlen-Wachter's friends say he is a second Bismarck, with the iron chancellor's skill in judging when to be rude, even to the emperor.

STOCK KILLED AND BUILDINGS ARE DESTROYED

Lightning Plays Havoc With Farm Property in Northeastern Licking and Southern Knox.

Martinsburg, O., July 12.—Mr. W. B. Shontz, residing here, suffered considerable loss as a result of the electrical storm Monday afternoon when two of his valuable farm horses were struck by a bolt of lightning.
The animals were turned loose in a pasture field and when the rain began to fall they sought shelter under a small tree. The lightning struck the tree and, consequently, both of the horses. One of them was killed almost instantly and the other rendered unconscious. It partially recovered the shock after a time, but it is thought that the animal will never fully recover the effects of the shock.

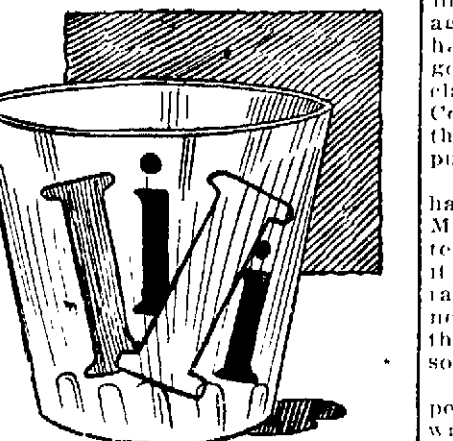

AT BRANDON, TOO

The large barn belonging to Charles Vanatta, about two miles southeast of the village was struck by a bolt of lightning Monday and before assistance could be summoned by Mr. Vanatta, the structure was a mass of flames. All attention was centered on the horses and other live stock in the barn, all being saved. About twenty tons of hay, fifty bushels of oats and fifty bushels of corn were destroyed as well as one buggy and several other articles. The loss was partially covered by insurance.
During the same storm the residence of Jay Harmon, located just east of Brandon, was struck by lightning and slightly damaged, the fire being extinguished before it had gained much headway.
A barn belonging to Frank Fishburn, located near the Harmon home, was struck by lightning and was slightly damaged. Fortunately the structure did not catch fire and the only damage done was by the force of the stroke.

ARREST MANY GIRL STRIKERS

Cleveland, July 12.—Wholesale arrests of girl pickets have been in the factory district, where representatives of the 6,000 striking garment workers congregated. Twenty-five were arrested and taken to central station on charges of disorderly conduct.

"SCOTTY OF DEATH VALLEY," MYSTERIOUS MINER, READY FOR ANOTHER TRANSCONTINENTAL DASH.

"SCOTTY OF DEATH VALLEY"
Reno, Nev., July 12.—Walter Scott, otherwise known as Scotty of Death Valley, the man who created a sensation several years ago when he hired a special train and tried to break the record from the Pacific Coast to New York, has appeared in Goldfield loaded with money, although three months ago he was broke here. He displayed \$11,000 in currency and promised to reveal the location of his alleged fabulous wealth after Aug. 1. Scott says he intends making another whirlwind dash across the continent in a special train. This special train trip will be his last appearance before the public, he declares. After that he will settle down. Scott declared he had been arrested 38 times in connection with his mining ventures. He added that he had never stolen anything and the source of his wealth when revealed would exonerate him.

CLAIM DEAD BROKER STOLE OVER MILLION AND A HALF

Chicago, July 12.—Notes aggregating between \$1,200,000 and \$1,500,000, which the late James Pettit, president of the Peavey Grain Co., whose body was found on the beach recently at his summer home floated on the credit of the grain concern, and which money he is said to have lost in private speculation, in wheat, were under consideration at secret conferences of Chicago and Evans-ton bankers yesterday.
After the last conference had adjourned, it was announced at the Peavey Grain Co.'s offices that the concern had decided to suspend its operations on the board of trade, and hereafter would conduct only its elevator business.
It was unauthoritatively announced that the company had promised the bankers that they would make good, penny for penny, on all the paper which had been given by Pettit upon the credit of the concern.
On top of this financial bombshell came the announcement that insurance companies holding policies aggregating \$500,000 upon Pettit's life would protest the verdict of "accidental death" returned by the coroner's verdict last Saturday, following the finding of his body in two feet of water in the beach near the Moraine hotel in Highland park.
To back up their contention that the grain company president did not die through an accident, the Fidelity and Casualty Co., with which Pettit held a \$25,000 policy, obtained a copy of the evidence given at the inquest and declared a post-mortem examination would be demanded.

MAYOR DIES SUDDENLY. St. Clairsville, July 12.—Mayor James Garvin, aged 60, of New Athens, fell dead in his store at that place yesterday.

INQUEST OF THE WRECK VICTIMS

Bridgeport, Conn., July 12.—At the two local hospitals, holding the remaining 45 injured from yesterday's wreck of the Federal Express, in which twelve persons lost their lives, the injured were reported today to have passed a comfortable night. Including the half dozen critically injured all are now expected to recover.
Four of the dead still remain unidentified.
Colonel Wilson will hold the inquest tomorrow or Friday. No arrests have been ordered in connection with the wreck. At daylight today the wrecking crew resumed their work of clearing away the mountain of debris.

PUBLICITY FEARED AND A SETTLEMENT MAY OCCUR SOON

New York, July 12.—The papers in Ethel Barrymore's divorce suit against her husband, Russell G. Colt, have reached this city from Los Angeles and been served. It was declared with equal authority that Mr. Colt is by no means anxious to have the suit go to court, or to have any publicity given the matter whatever.
Mr. Colt, it was learned yesterday, had a conference with Davis Geiber, Miss Barrymore's attorney at the latter's office. Mr. Colt's chief desire, it appeared, was to make some arrangement which would preclude the necessity of dragging into the case the name of a well known New York society woman.
Ethel Barrymore's attorney expects to hold another conference with Mr. Colt and in case Mr. Colt refuses to come to the terms of settlement which the actress demands the papers will be filed and the charges made public.

OFFICIALS OF UNIONS INDICTED

Charged With Killing Professional Slugger in Chicago Saloon

LABOR CIRCLES STIRRED

Over the Rivalry Between Unions Which Led to Open Warfare.

Chicago, July 12.—Not since the arrest of the McNamara brothers and Orville McManigal, charged with blowing up the Los Angeles Times, have labor circles here been so stirred as by today's announcement that the grand jury yesterday indicted four high union officials for murder.

The indicted men are: Simon O'Donnell, president of the Chicago Building Trades Council, with 60,000 members, and business agent of the United Association of Plumbers; Thomas Kearney, business agent of the United Association of Plumbers; James Garvin, business agent of the same union; Maurice ("Boss") Enright, alleged professional slugger and gun man, business agent of the Steam Fitters union, which is associated with the United Association of Plumbers. All are charged with the murder of Vincent Altman, professional slugger and murderer, killed in the saloon of the Briggs Hotel on March 22.

Enright, who confessed that he later killed William (Dutch) Gentleman, another labor slugger, was in jail charged with the murder of Altman. The other labor leaders had not been arrested up to an early hour today, but detectives were after them.
For years there has been a jurisdictional fight on in Chicago between the building trades council of the American Federation of Labor of which O'Donnell is president, and an independent building trades council, of which "Skinny" Madden is president. Each of these councils maintains unions representing every branch of the building trade.

The rivalry between these unions, especially between the plumbers and steamfitters, led to open warfare. It is alleged that Enright was hired as "slugger-in-chief" of the council connected with the American Federation of Labor, and Altman as chief slugger of the independent council.

It is charged that a plot to kill Altman was formulated in O'Donnell's room by the four men indicted; that Enright agreed to kill Altman for a certain sum of money, and that after the killing, Enright with the help of his alleged conspirators hid in O'Donnell's room, after throwing his overcoat and revolver in an upstairs room where it was found later.

THOMAS ESCAPED FROM THE JAIL

Lore City, O., July 12.—Thomas Ramsey of Hartford, who was fined \$100 and costs Tuesday morning by Mayor Potts on a liquor charge, stayed in jail for only a few hours, as Tuesday afternoon, during the rain and hail storm, he loosened one of his bars, picked open the jail, and escaped. At a late hour last night he was still at liberty.
Ramsey had been incarcerated in the county jail at Cambridge, but was brought back here for his trial. Only one witness testified, this being sufficient to convict him in the eyes of the mayor. Authorities of surrounding towns have been notified of the escape.

A Philadelphian has obtained a patent for an aerial advertising sign, waved by an electric motor suspended from two captive balloons.

THIRTEEN YEAR OLD GIRL HOLDS UP BANK CASHIER

Cuyahoga Falls, O., July 12.—It was practically decided today that no prosecution would follow the attempt of thirteen year old Edna Peebles to hold up in true western bandit style the Cuyahoga Falls Savings bank late yesterday afternoon. The bank officials declare the girl is more deserving of pity than blame, Miss Peebles, whose father is a porter and her mother a washerwoman decided on the bank holdup as the only means of earning the little fancy articles of dress which she so much desired, but was unable to buy. Equipping her-

self with a .38 calibre revolver, which she did not know how to shoot and a big hunting knife which she did not know how to open, she suddenly appeared in the bank late yesterday afternoon and pointing the revolver at Assistant Cashier Gensinger demanded that he open the vaults for her.
Gensinger, however, proceeded to argue with her that he could not open the vaults and that he had no money in his pockets and the girl later losing her nerve backed out of the door and started to run. She was quickly arrested.

DAYTON TAKES OPENER FROM CRIPPLED LOCAL TEAM IN BRIEF SESSION

Parker Retires in First Inning With Dislocated Thumb—Pendry Is Spiked By Kirkpatrick—Pitchers Hale and Shafer Fail in Efforts to Stop Slaughter By Vets—Rain Interferes As the Newark Team Looms Up Promising.

In the greatest hardluck game seen at Wehrle park this season the Dayton Vets succeeded in annexing a brief contest from the New Newark Central Leaguers by a 7 to 4 score. A few minutes more of delay in the storm which broke over the park after the first half of the sixth inning had been played, might have resulted in a different score. On the other hand, if the storm had come a few minutes earlier it would have stopped the game before the full five innings had been played and the result would have been no game.

However, the five and a half innings which were played, gave the Newark fans an opportunity to see some of the fastest baseball ever played on the local lot. It also gave them an opportunity to compare the Newark team with that of the high salaried aggregation wearing the uniform of the Dayton Vets.

In this case the comparison was not odious. With the exception of two innings when Newark's pitcher went mad, the Newark team stacked up favorably alongside the league leaders. After the second inning, the Vets were powerless before the mighty slants and curves of Gilbert. On the other hand Newark was working Big Wacker in every inning and there was every indication that if the game had gone the regulation number in frames that Wacker would have been driven to the bench whipped.

Big Ed Asher was warming up after the fourth inning and he kept himself in readiness to fill in the breach which would have occurred if Wacker had been driven from the mound.

Hale started the game for Newark and one run resulted in the first frame owing to his wildness. Two passes, a hit and a sacrifice noted this run and the further scoring of Dayton was stopped in this inning through the fast work of Pendry and Regan who figured in a double play on DeHaven's attempted bunt. In the second three hits and a walk allowed by Hale, an error by Murray after Shafer relieved Hale, a triple two singles a walk and a passed ball resulted in six runs. It was an agonizing inning both for the fans and for the players. Every man was under a terrible nervous strain. Hale and Shafer lacked control and when the ball was grooved it was clouted by the insistent sluggers from Dayton. Gilbert was ordered to warm up but before he felt in condition to assume charge of the heaving department, the inning had been ended and the Vets had a seven run lead.

Newark not daunted by the overwhelming odds, went right after Wacker in the second inning. Wickland fanned and Gray doubled to left field. Craven made a noble effort, but his fly to left was copped by DeHaven. Kihm walked and Quesser, who had replaced Parker when the latter had his thumb dislocated, being a stranger to the Dayton bunch was walked as a matter of precaution. This choked the cushions and Shafer seemed promising as he took his position at the plate.

After several healthy swings resulting in fouls, he was retired on a high foul which Rohrer caught after a hard run.

In the third the assault on Wacker was resumed. Regan was retired on a grounder to Kirkpatrick. Murray

singled to left and Werder was put on the paths to run in his place. Pendry's long fly to left was capped by Spencer. Wickland singled and Sluggers Gray was walked, again filling the bases. Craven proved to be the pinch hitter and he drove one to left field fence for two bases, scoring Werder, Wickland and Gray. Craven immediately stole third after Kihm was hit on the arm and later came home on the catcher's error in throwing to second.

Quesser was too anxious to hit and his high foul was gathered in by Rohrer. In the fourth with two down, Murray doubled to left field, but again Rohrer stopped the Newark scoring combination by catching Pendry's high foul.

In the fifth with one out Gray singled and Craven hit a foul to Kirkpatrick. Kihm was walked and the two men worked on a double steal. Quesser swung healthily at a bender from Wacker and the ball hit him on the arm, Eagan calling him out. This ended the scoring for when Newark began their half of the sixth the rain commenced and after a half hour's drizzle Umpire Eagan called the game.

MAGEE IS OUT FOR THE SEASON

Umpire Finneran's Assault May Play Baseball No More This Season—Gets Maximum Fine.

New York, July 12.—Resides indefinitely suspending Outfielder Magee for his assault upon Umpire Finneran, President Lynch of the National League has imposed a fine of \$200 upon Magee. This was announced at National League headquarters last night, following the return of President Lynch from Philadelphia, where he went to investigate the affair. The fine is the limit allowed by the National League regulations.

WOMAN OWNER OF CARDINALS IS VICTOR IN SUIT

Mrs. Helen E. Britton, Chief Owner of St. Louis Nationals, Remains in Power.

St. Louis, July 12.—Edward A. Steininger, president of the St. Louis National League baseball club, was appointed administrator of the \$400,000 estate of the late Stanley Robinson by Probate Judge Holtcamp yesterday afternoon. Steininger must furnish \$200,000 bond. At the same time Judge Holtcamp denied the petition of Frederick N. Abercrombie to be appointed administrator. Abercrombie was named in Robinson's will. Steininger's appointment also nullifies the action of the public administrator, who also sought to have charge of the estate.

Mrs. Helen E. Britton, niece of Robinson and chief owner of the club, petitioned the court to have Steininger named. In her testimony Mrs. Britton told of Robinson's declaration to her five days before his death that he intended to take Abercrombie's name out of his will and that he regretted having named him as executor. She told of an effort which he made to go to his lawyer's office to change his will.

QUINN WATCHES LOCAL TEAM

Bobby Quinn, secretary and business manager of the Columbus American Association club was a spectator at Tuesday's game looking for material for his club. Quinn has put on glasses since his last visit to Newark. A friend in remarking about the new spectacles brought a quick one from Bobby. "I've injured this good right eye looking for ball players," he said.

BRESNAHAN FIRST AID TO INJURED

New York, July 12.—Roger Bresnahan seems to be the all-American all-around champion hero. The Cardinals' manager was first-aid-to-the-injured nurse at the wreck of the Washington-Boston express on the New Haven railroad yesterday.

He telephoned several of his friends here that he was uninjured, and then in answer to questions told how he and Edward Konetsky and Ivey Wingo saved a woman, pinned under her wreckage from fire. None of the baseball players was injured, although all were shaken up when the sleepers left the rails. The cars were on the rear of the train and did not follow the other coaches down the embankment.

Do You Get Up With a Lame Back?

Kidney Trouble Makes You Miserable.

Almost everyone knows of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. Because of its remarkable health restoring properties, Swamp-Root fulfills almost every wish in overcoming rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night.

Swamp-Root is not recommended for everything, but if you have kidney, liver or bladder trouble, it will be found just the remedy you need. It has been thoroughly tested in private practice, and has proved so successful that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Home of Swamp-Root, Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all druggists. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle. When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

WICK'S SHOES ARE CAUSE OF FALLS

Centerfielder Wickland of the Newark club has had two disastrous accidents in games at Wehrle park since coming here a week ago. Twice he has fallen as he started after a long fly and both times several runs resulted. His shoes are much worn and he doesn't like the idea of having to break in a new pair. He will have to do it, however, to save himself from the stigma of allowing opposing teams to score runs on his accidents.

Chicken and Corn Soup.—Take two quarts of the liquor in which a chicken has been boiled, add one pint of corn scraped from the cob, chopped, one tablespoonful of finely chopped onion and one scant teaspoonful of salt and simmer, closely covered, for an hour. Rub through a fine sieve and return to the fire. In a small saucepan melt one tablespoonful of butter, add two tablespoonfuls of flour and when mixed, one cupful of rich milk or cream. Add gradually a portion of the soup and when smooth turn into the larger kettle. Season to taste, sprinkle in one tablespoonful of very finely chopped parsley and serve.

Rich Lemon Cream Pie.—Heat a quart of milk and stir into it one-third of a cupful of cornstarch wet with a little cream, let this get hot, stirring all the while. Beat up the yolks of five eggs, with five tablespoonfuls of sugar, then add the milk and flour to this. Cook together for one minute after they come to the simmer; remove from the fire and add the grated rind and strained juice of a large lemon. Bake in open shells of puff pastry, and as soon as the custard is set, cover it with a meringue made of the whites of the eggs beaten stiff, with three tablespoonfuls of sugar, brown lightly and serve cold.

RETIREMENT OF SCHOOL BOOK TRUST CHAMPION

A School Commissioner Zeller, a
Republican, before retiring, complained
because his Democratic colleagues on
the state school book commission re-
cently ordered a reduction in the price
of school books that will save the
parents of pupils nearly \$1,000,000.
Zeller apparently was offended be-
cause the school book trust, whose
legislative bills he has always advocat-
ed, would lose that \$1,000,000. In
his statement denouncing the reduc-
tion Mr. Zeller unconsciously gave the
figures which show a million dollar
saving to the people. He said that
\$750,000 worth of books are bought
each year in Ohio. The school book
commission made a 25 per cent reduc-
tion in the price of these books. This,
it is clear, means a saving of \$187,500
each year. The price was to continue
for five years, making the total saving
\$937,500.

When Commissioner Zeller retired
from office, the school book trust lost a
good friend. The people gained, how-
ever, as a Democrat, Frank W. Miller,
who will work with his associates on
the state school book commission,
succeeded him.

A saving to \$937,500 by a single act
is something that should not be fore-
gotten by the electors when they go
to the polls.

The defeat by overwhelming majori-
ties of the amendments to the
Canadian Reciprocity bill offered by
Senators Cummins and Simmons is
conclusive proof that the battle for
freer trade with Canada is won. The
largest vote for the amendments was
fourteen and the majority against
them reached a maximum of fifty-
three, indicating that the original bill
has a safe majority of the whole Sen-
ate. The humiliated and discredited
insurgents should realize now the folly
of further opposition. It is time for
the final vote.

HUNS AND SLAVS IN RACE WAR.
Akron, O., July 12.—Between 60
and 70 Hungarians and Slavs en-
route to their annual picnic, en-
gaged in a race war at Barberton and
many were injured. It was a one-
sided affair, 50 Hungarians attack-
ing the smaller army of Slavs. Steve
Christianson received a bad knife
wound in the neck. Mike Chulki was
slashed in the shoulder and one of
his ears was partially severed. Sev-
eral arrests were made by the police.
Conversation regarding the superior-
ity of the two races started the trou-
ble.

"SMOKED OUT AT LAST"

Meantime the Advocate will keep right on in its own
determined effort to save the Democratic party from
defeat and to protect both the party and the city from
odium.

This paper will continue to appeal to Democratic
voters to nominate a candidate for Mayor who will not
drag the party down to disaster—a man who can be
elected, and who, when elected, will give our city a cred-
itable and befitting administration.—Advocate.

It will be seen by the above that the twaddle put
forth by the Advocate of wanting somebody for Mayor
not connected with the lynching was, as the American
Tribune said, for selfish political purposes only. It want-
ed "a candidate for Mayor who will not drag the party
down to disaster," as it says above. In other words it
cared not who is the candidate so long as the party is
successful.—American Tribune.

The above appeared in the American Tribune of
Tuesday evening. "Smoked Out, at Last," is that pa-
per's claim as the result of its assault on the Advocate's
campaign for a good, clean Democratic candidate for
Mayor.

The first article of the American Tribune, wherein
that paper butted in to the Advocate's Mayoralty issue
was on Monday, July 3.

Whereas, the first of the Advocate's series of arti-
cles was published on Thursday, June 29. The second
paragraph of that article contained the following state-
ment:

"The Advocate has no candidate to suggest, but the
Democratic sentiment that prevails so strongly for the
nomination of a man who can be elected and who will be
a credit to the party as well as a credit to our city after
he is elected, should be getting into some practical form
at an early date in order to save the party from dis-
credit and defeat."

The very same position, as near as words can state,
appeared in the Advocate four days before the Ameri-
can Tribune butted in to "smoke" the Advocate "out."
What a wonderful achievement that "advancing" paper
has accomplished!

As to the A.-T.'s awful charge that the Advocate's
chief aim in securing a creditable candidate for Mayor
is party success, this paper pleads guilty, for the rea-
son that it deems it the proper and most effectual way to
protect from odium both the party and the city of New-
ark.

WAR ON CHINTZ BUGS BEGUN IN EARNEST

Farmers are Waging War on This
Noxious Bug—Experiment Sta-
tion Gives Instructions.

The farmers of Licking county are
preparing to defend their crops
against the ravages of the chintz
bugs which are infesting the crops,
especially the corn and oats crop. So
noxious are the chintz bugs that in-
sect devouring birds will not eat
them, although it is claimed that
the quail is an exception to this
and will destroy the little pests. John
Gahal has lost about one-third of his
corn crop by the bugs. Arnold Kall-
merten telephoned the experiment
station at Wooster and received the
following instructions for preventing
chintz bugs from destroying crops:

Plow a furrow around field not al-
ready infested, furrow about eight
inches deep by one to two feet wide;
harden one side of it and pour on a
sieve of coal tar, one-half to one
inch wide, or road oil. If coal tar
is used, renew every six hours. In
other words, put it on twice a day.
If road oil is used it need not be re-
newed so often, every two or three
days. Dig holes into the furrow with
posthole digger or otherwise, about
ten to fifteen feet apart. These holes
are to serve as traps. Bugs can be
easily killed after they have dropped
into the traps.

For corn already infested make a
spray of the following ingredients:
One-half a pound of soap, soft or oth-
erwise, dissolve in one gallon of wa-
ter by boiling. When thoroughly dis-
solved take from and away from the
fire and pour in two gallons of coal
oil put in the spray pump and work
or churn the emulsion until every
part of the oil has been assimilated
and the emulsion has become of a

milky hue, then add eight to ten gal-
lons of water and spray the infested
corn with a broom—it will kill the
bugs.

DESCENDANTS OF OHIO GOVERNORS AT CENTENNIAL

Active work in locating all the de-
scendants of all the Ohio Governors un-
der the auspices of the Ohio Columbus
Centennial Commission will begin at
once. To have charge of this work a
committee of five, all sons of well-
known governors of the state, have
been selected. They are: John L. Bus-
nell of Springfield, chairman; James R.
Campbell, Jr., Columbus, secretary;
Rutherford P. Hayes, Ashville, North
Carolina; Parmely W. Herrick, Cleve-
land; and David Todd of Youngstown.
The last fifty years of state history are
thus covered by representatives on the
committee.

There are on file in the office of the
Ohio Columbus Centennial Commission
more than fifty letters of descendants
who have written in giving their con-
nection with state executives. It is
believed that this is about ten per cent
of the total number. Information at
hand indicates that these descendants
are scattered from Maine to California.
One of the features of the Centennial
will be a reunion of all these descend-
ants, for which an elaborate program
will be worked out.

THE GUN TOTER.

He's sitting in prison and sorrow is his'n, he's wishing he never
had carried a gun; he thought it was clever to pack one forever and
aim it at people in spirit of fun. And it, one fine morning, went off
without warning, and plucked a bystander, who turned up his breast;
and now he is waitin' the wearisome jail in, an' none has pity for
him in his woes. The bystanders are crowded with gentlemen shroud-
ed, and shouler in boxes, the victims of fools, of pin headed var-
mints who loaded their garments with all kinds of deadly and mur-
derous tools. And widows are sighing and orphans are crying all
over this country because of the blokes who always are plannin' to
spring a big cannon and brandish it gaily till somebody croaks. Oh,
let the law step on the foot with a weapon, and bury him deeply and
load him with chains! No inmate's greater; it seems the Creator
in building forgot to equip him with brains.

HOGAN GETS PART OF LOST STATE FUND

FAILURE OF BANK IN CLEVELAND
LAND IN WHICH STATE MON-
EY WAS DEPOSITED.

May Not Mean Loss to Treasury—
Bonding Company Gives Check
For \$25,000—More to Come.

Columbus, July 12.—Using the
state treasurer's office as a club At-
torney General Hogan yesterday re-
covered \$25,000 of the \$75,000 the
state had on deposit in the Farmers'
and Merchants' National Bank of
Cleveland, at the time of the failure
in 1908, and expects to get the re-
mainder the same way.

A check for \$25,000 was handed
Hogan yesterday by a representative
of the Massachusetts Surety and
Bonding Company, who was accom-
panied to the attorney general's of-
fice by Thomas Brady of Cleveland,
and Arthur I. Vorys of Columbus, at-
torney for the company.

The bank was approved as a de-
pository by former State Treasurer
Charles C. Green 60 days before it
made an assignment. The Massa-
chusetts company was surety for
\$25,000 of the state deposit and the
Empire Surety Company of New York
for \$50,000.

The surety companies insisted the
state should look to the assignee of
the bank for all of its claim not cov-
ered by bank collateral held by them.
Former Attorney General Denman
brought suit in the Cuyahoga com-
mon pleas court against both the as-
signee, Thomas D. Holden, and the
Massachusetts Surety and Bonding
Company, but the case has not been
tried and the defendants said litiga-
tion would be carried to the supreme
court.

Hogan decided to hasten matters
by an embargo. He requested State
Treasurer Creamer not to accept as
surety for state funds deposited in
banks any bond furnished by this
company. It just happened that the
next day a bond of that company was
presented to Creamer, who declined
it on the ground that in case of a
bank failing the state desired to real-
ize on its sureties without prolonged
litigation.

Hogan also issued an ultimatum to
the surety company that if payment
of the state's claim already two years
overdue, was not made by July 4 he
would extend the embargo by re-
questing county and city treasurers
to refuse to accept its bonds.

He also stated he would dismiss
the Cleveland suit and start a new
one in the Franklin county court,
where he could keep in close touch
with it, and would enter motion to
advance it for quick action.

Yesterday's settlement followed.

Former State Treasurer Green en-
tered into arrangement with the Em-
pire Surety Company to accept inter-
est on the state's claim for two years
pending settlement, and not to bring
suit during that period. That agree-
ment expired July 1, 1910. Hogan
will endeavor to secure the remain-
ing \$50,000 if necessary, by the em-
bargo method.

No man can travel the road to
success unless he keeps out of the
rut.

Clergyman's Son Cured of Tuberculosis

To neglect a cold, bronchitis, lung trou-
ble or Consumption is dangerous. We all
know how prone people are to deny the
existence of such troubles until they are
deeply seated and the sufferer is filled with bright
hopes of improvement. Calumet's Al-
ternative is the only medicine that
restores perfect health. No one need doubt
about it. There is only one evidence
from five witnesses. Investigate the
following: "Prior to Feb. 1908, I was
located in Rochester, N. Y., suffering
with LaGrippe, which developed into
Tuberculosis. My health gave me no
month to live. I was having terrible
night sweats and day chills and los-
ing flesh rapidly. I had come from 155
to 125 lbs. I coughed and raised contin-
ually and became so weak that walking
was a great feat. On my return home,
my regular physician gave me lit-
tle encouragement. My father, who is a
clergyman, and of whom I am a great
admirer, and indeed he took it. The
night sweats and chills disappeared, my
cough became quiet and gradually dis-
appeared and in a few days I developed
an appetite, the first in months. I am
now in perfect health, back to 155 lbs.
I feel certain that I owe my life to Cal-
umet's Alternative."

God bless it! I cannot find words to
express my appreciation of what your
remedy has done for my son. It changed
despair into hope and in two weeks af-
ter he began taking it, and without any
doubt in my mind, it saved his life.
I wish to put it in endorsement to
every word of his statement."

Annual Meeting of State Bar Association
Starts at Cedar Point
Tuesday Afternoon.

Cedar Point, July 12.—With the op-
ening of the Ohio State Bar associa-
tion's annual meeting here this after-
noon, it is apparent that the coming
constitutional convention will be the
topic of controversy. The attend-
ance this year would have been very
light but for the desire of certain big
interests and their reactionary friends
to prevent any declarations for a pro-
gressive constitution. A bitter at-
tack upon the initiative, referendum
and recall was delivered before the
association this afternoon by Repre-
sentative McCall, Republican, of Mas-
sachusetts.

Imagine, if you can, the condition
we should reach if each of the 46
states and the national government
should have the system of direct legisla-
tion. Your statute books would
shortly become a medley of half con-
sidered reforms and the enforcement
of your laws would mean the destruc-
tion of your civilization."

James Harrison Boyd is chairman of
the employers' liability commission of
Ohio.

Sandusky, July 12.—The thirty-se-
cond annual meeting of the Ohio State
Bar Association began yesterday after-
noon at Cedar Point.

There were indications last night
that the lawyers are to give serious
attention not only to matters to which
their profession is directly interested,
but to public questions, including the
coming constitutional convention. The
committee on judicial administration
and legal reform submitted its report
yesterday afternoon.

The committee recommended that in
view of the fact that in 1912 a con-
vention will be held to revise, alter or
amend the constitution of Ohio, a num-
ber of changes be made.

It is recommended that the number
of judges of the supreme court be in-
creased to nine; that each county in
the state shall constitute a common
pleas district, and that no changes be
made in the present constitutional pro-
visions as to the circuit court. Presi-
dent Allen Andrews' annual address
will be delivered today.

Tomorrow afternoon Congressman
Samuel W. McCall of Massachusetts
will speak on "Representative as
Against Direct Government." He will
be followed by James Harrison
Boyd of Toledo, who will discuss the
question of "Employers' Liability Leg-
islation: Its Purpose and Method of
Enforcement."

The annual memorial address will be
delivered Thursday afternoon by Judge
William Z. Davis. About 700 lawyers
from all parts of the state are in at-
tendance.

REMARKABLE WHEAT YIELD IS REPORTED

Reports of threshers received from over the county, regarding the wheat crop, indicate that this year will be the heaviest yield of this grain the county has known for years. Very few short crops are reported and many unusual yields have already come to the attention of those interested in the yearly harvest of this well known commodity.

Evans Brothers, threshers, of 46 Western avenue, this city, in a number of cases, report the most phenomenal wheat crops yet given out.

In threshing at the farm of Val Keller, north of the city, this week, the unusual average of 50 bushels of wheat to the acre is reported. This report is supported by substantial corroborative evidence and Mr. Evans declares that the report is not "padded."

Harry Ramsower, a brother-in-law of Mr. Keller, on an adjoining farm, threshed what is perhaps the biggest crop of wheat this season has produced. The yield in this case was 1869 bushels, which averaged 39 1-2 bushels to the acre. In both cases given above, the farmers producing such remarkable crops did nothing more than the ordinary intelligent cultivator does to insure the best crops for the same amount of labor and time. It was not an experimental acre or two but just the result of ordinary horse sense shown in the cultivation of the field.

The same threshers report a yield of 47 1-8 bushels per acre on the farm of Charles Keller. Charles Van Tassel, on the old Robert Owens farm on the Mt. Vernon road, on an excellent field of good wheat, secured an average of 42 1-2 bushels per acre.

When it is considered that 25 bushels per acre is regarded as a very fair yield, it will be seen that the crops reported above are remarkable.

FLY IN EAR, BOY'S DEAD

New York, July 12.—About a week ago a swelling was noticed on the left ear of five year old Thomas Hilarion. The child became steadily worse, several doctors being unable to give relief, and it died yesterday. Autopsy revealed the remains of a large house fly within the cavity of the ear. The insect had penetrated beyond the drum, died there, and in some way caused blood poisoning, which affected the boy's brain and ended in death.

A man may have clean-cut features as the result of being shaved by a nervous barber.

ROBINSON'S CIRCUS

It may be truthfully said of the John Robinson Ten Big Shows Combined that they are a veritable village within themselves. There are the big cooking tents, where nearly 3000 meals are served daily; the immense stable of horses, in which are quartered more horses than in a dozen livery stables; the blacksmith shop, where there are scores of horses shod daily; the repair shops for the fixing of wagons that are damaged enroute; the barber shop; the commissary department, where everything from a pair of shoe strings to a full suit of clothing may be purchased; the school, conducted by an eminent professor and attended by the children of parents attached to the show; the fraternal organization, sewing society and social clubs. Then there is the doctor's office, the drug store, the attorney's office, the police headquarters, the newspaper department, the banking department, the railroad offices, the business offices, and last, but not least, the office of Manager Robinson, the master mind that directs them all. With these various executive departments and working departments there is nothing but the strenuous life from early morning until late at night. With a large show such as the John Robinson, idleness is an unknown quantity and should idleness be in evidence the department would not be.

It is not all work around the big show and there are many of the little social events that make life endurable chronicled each season. Cupid does not pass by the show tent and there is not a year passes but what two hearts are made to beat as one, while the christening comes occasionally. One thing that must always be said for the little god of love—he does his work thoroughly and it is a matter of history that there are fewer appeals to the divorce courts by the circus people than by any other class of people. Marriages and christenings are not the only happy events. There are the Sunday outings and the socials that are held when the show is on week stands.

What is said to be the most complete fire fighting equipment in any large building in the world is that which has been installed in the new Pennsylvania railroad station in New York.

STATE WILL CARE FOR RECORDS OF MEXICAN VETS

Will Be Shipped to Columbus and Stored in a Steel Case—List of Reunions.

Granville, O., July 12.—Among the most interesting things in connection with the recent reunion of the veterans of the Ohio State Association of Mexican War Veterans held in Newark, was the exhibition of the records and relics of the association. It will be remembered that when Captain James H. Smith of this city, who for years was the efficient secretary of the association, the books and records passed into the hands of Captain J. A. Fisher of Granville, who was elected secretary of the association. His sight failing him, however, the duties of secretary were performed by his daughter, Miss Eleanor Fisher, who was elected to the position, assisted by her mother, Mrs. J. A. Fisher. During the time the books have been in the possession of Captain Fisher they have all been nicely bound and arranged through the courtesy of Col. W. E. Curry, United States pension agent at Columbus. These books contain the records and reports of General Scott and General Taylor and their subordinate officers and have always been carefully preserved. There are also three large scrap books containing newspaper clippings, and largely compiled by Col. Curry. Captain Fisher, although 86 years of age, is still one of the most active of men. He enlisted in Co. A, Second Ohio Volunteer Infantry, at Chillicothe, May 27, 1846, for one year. His regiment was mustered in at Camp Washington, near Cincinnati, in July, 1846, and was mustered out at New Orleans by Captain Churchill in June of 1847.

Captain Fisher, who is now the first vice president of the Ohio Association, will send the records and books to the office of the adjutant general of Ohio this week, where they will be stored away in a steel case secured through the efforts of Col. Curry. The records consist of the following:

Orders and reports of officers.
Report of secretary of navy.
Roster of Ohio soldiers of Mexican war.
Ohio State Association, Mexican War Veterans.
Minute book.
Mexican War Veterans' roll call.
National Association Mexican War Veterans.
Among the records are the reports of the national reunions held at the following named places:

Washington, D. C., January 15-17, 1874.
Washington, D. C., February 22-23, 1875.
Philadelphia, Pa., July 4, 1876.
Washington, D. C., February 22-24, 1877.
Baltimore, Md., February 22-23, 1878.
Louisville, Ky., February 22-23, 1881.
Cincinnati, O., September 14-16, 1881.
Nashville, Tenn., September 15, 1882.
Washington, D. C., December 6-8, 1883.
St. Louis, Mo., October 8-10, 1884.
Indianapolis, Ind., September 16, 1885.
Des Moines, Iowa, August 19-20, 1886.
St. Worth, Texas, November 6-10, 1887.
Indiana Mexican War Veterans' reunion, held at Lake Cleot, near Loansport, Indiana, January 8, 1886.
Records of the Ohio Association Mexican War Veterans held at the following named places:

Fremont, Ohio, May 25, 1886.
Newark, Ohio, May 8-9, 1889.
Mt. Vernon, Ohio, May 8-9, 1890.

THE OLD GUARD OF NEWARK

The above is the name of a company recently organized in this city, and is the second company of its kind in Ohio. It is a military organization composed of honorably discharged soldiers and sailors of the Civil war, fully armed and equipped. It was organized for social and patriotic purposes, to teach (by example) patriotism, and loyalty to the Stars and Stripes, to attend funerals of deceased comrades, to observe with due respect, obligations and duties on Memorial Day, to attend State encampments, inaugurations and other parades, when requested to do so; also to assist the authorities of Newark in defense of law and order when called upon, and to perform such other duties to which they may be called.

All Union soldiers and sailors of the war of the rebellion, who have an honorable discharge, are admitted to membership. The company will meet Thursday night in G. A. R. hall for the purpose of adopting by-laws and rules, and also to adopt uniform and transact other important business. Every member of the company should be present. A cordial invitation is extended to all ex-soldiers and citizens who are interested in making the Old Guard a success.

Any person of good character may become an honorary member of the company by the payment of honorary membership dues.

Our citizens generally should encourage the old soldiers in the patriotic spirit displayed in their declining years.

TELEGRAPHIC TIPS

New York: A blacksnake got into the telephone distributing box at Montclair exchange and caused a short circuit giving the "hello" signal. The line was tied up for hours before the viper was discovered.

London: Two hundred pieces of skin were grafted upon the body of a farmer's wife brought to a hospital here. Twenty relatives gave up portions of their cuticle.

Grasmere, N. Y.: With everything set for a thrilling moving picture scene on Grasmere Lake, Albert Dreyer jumped aboard a boat to save a "drowning actress." He failed to rise. Moving pictures of the search for the body were taken.

New York: A moonshiner's outfit that turned out more booze than the biggest still in record in the southern mountains was captured in Brooklyn, together with two thousand gallons of moonshine.

New York: Hiding for nearly a month in a hayloft, her only food being horse fodder, Vera Trevor, a heat-crazed Austrian girl, was discovered by the police yesterday nearly dead from starvation.

Albany, N. Y.: A bill establishing a state farm for tramps where any down east hobo may go and rest up has passed the senate.

Marion, O.: Joseph W. Harris reprieved a keg of beer which the police seized while a family at his house was enjoying it. When the court awarded the keg back to him, the beer was gone.

Warren, O.: County work and city diet killed Harry Rigel, 60, who after a day's labor on the farm came to town and regaled himself on ice cream, sour pickles, pop and crackers. He died shortly afterwards.

Sandusky: Rodney Diegle, Seneca sergeant-at-arms, recently convicted as a go-between in the Ohio legislative bribery scandal, was given a rousing welcome upon his return home here. He is under bonds pending an appeal.

Chicago: Mollie Bartlett of Elgin, opened her eyes after a seven days' sleep and could not be convinced that the same Fourth of July for 1912 had passed into history.

WIND STORM WAS FOLLOWED BY RAIN

Another one of the strongest wind and rain storms that has passed over Licking county this year, occurred about 4:30 o'clock Tuesday evening. Shortly after 4 o'clock black and ominous clouds rolled up from the northwest, while others came sailing down from the northeast. The clouds seemed to collide almost directly over the city, and in a short time it appeared as though a veritable cyclone was raging. The wind blew a perfect gale and was accompanied by a hard rainfall, which was general all over the county, although the wind in other places was not so noticeable as it was in Newark. After the clouds converged the storm seemed to travel towards the southwest. Considerable damage is reported to have been done. Many fences, small buildings and much corn is reported to have been blown down.

FACTORY LOOKING FOR NEW LOCATION

The Kindel Bed company of Chicago is considering the moving of its factory to some smaller town. It might be well for the Newark Board of Trade to look into the matter. A number of towns are after this plant. The company at present employs 75 men, but 100 to 150 would be employed, if the company located in a smaller town. At present the company occupies 20,000 square feet of floor space, but from 40,000 to 60,000 square feet of floor space would be required in a new factory.

To Hold Reunion

At Black Hand on Thursday, August 17.

The twenty-sixth annual reunion of the soldiers and sailors of Central Ohio, will be held in the beautiful grove at Black Hand, on Thursday, August 17. Mr. D. T. Francis, of Black Hand, who for years has been on the committee of arrangements, was in the city Wednesday, making preliminary arrangements for the reunion. The annual reunions of the old soldiers of Licking, Muskingum and adjoining counties, is always an event that is looked forward to with keen interest by the old veterans, and the crowds that assemble at the historic Black Hand, run up into the thousands. The speakers for the reunion will be announced in the near future.

SCHOOL TEACHER DRAWS BIG FINE

Bellefontaine, July 12.—George Pluckett, superintendent of the Fletcher public schools was fined \$500 and costs and sentenced to serve six months in the Shelby County jail, on the charge of contributing to the delinquency of a girl member of this year's graduating class. A joy ride to Sidney figured in the testimony at the trial. Pluckett is married and was formerly Sunday school superintendent of the Fletcher Methodist church.
